FROM LONDON

Are on Duty at Hull, England,  
Docks Today

## WAS A BIG RIOT LAST NIGHT

Much Property Was Destroyed, and To-day All Sorts of Missiles Bear Testimony to Severity of the Seamen's Riot.

Hull, England, June 30.—The neighborhood of the docks furnished ample testimony to the severity of the rioting in the seamen's strike, which continued until the early hours to-day. Much property was wrecked during the night. All sorts of missiles, which had been used by the dock hands, were strewn everywhere. Portable property was destroyed.

## ATE RAT BISCUIT.

Thirteen Children Were Poisoned at Lowell Yesterday.

Lowell, Mass., June 30.—Thirteen children, most of whom are very young, were poisoned yesterday by eating rat biscuits, which they had found in the ruins of a drugstore burned about a fortnight ago.

The children are Edward Shea, Margaret Gibbons, Katina, Charles, Ellen and Thomas Kouparos, children of Louis Kouparos; James, Amale, George and Katina Karagakos, children of Peter J. Karagakos, and three children of Mrs. Peter Georgopoulos. All live on or near Fenwick street, in the vicinity of Doyle's yard.

None of the children were seriously poisoned and after being treated at the Lowell hospital, all but five were sent to their homes. The condition of the five, who are the Shea boy, the Gibbons girl and three of the Karagakos children, was such that the physicians thought the little ones had better spend the night under observation.

The children were playing near the ruins of the drugstore. The entrance to the store was boarded up, but the planks had become loosened and one of the boys tore them off. On going inside the children discovered the biscuits, which they thought were good to eat. It was not long before all began to feel the effects of the poison and doctors were called. After giving as much relief as possible, the physicians advised sending the children to the hospital.

## TRAVIS BACK IN FORM.

Veteran Golfer Sufficiently Recovered From Malarial Fever.

Manchester, June 30.—Walter J. Travis, ex-amateur and ex-British golf champion, who is stopping at the Equinox for several weeks while recuperating from malarial fever, appeared at Ekwanok yesterday and successfully competed against the best ball of J. B. McCoursey of Philadelphia, H. A. Matthews, private secretary to Robert Lincoln, and James L. Taylor of the executive committee of the U. S. G. A. The match was won by 3 up to 2 to play by Mr. Travis, who turned in a card of 72 for the round, which is high in three strokes of the course record. Mr. Travis says he never saw the course in better condition, and that the new bunkers and pits added since last season make the playing especially interesting. Fred Herreshoff was an interested spectator of the round.

## AFTER CUSTOMS OFFICIALS.

It Is Alleged That Government Was Defrauded of \$300,000 In Duties.

New York, June 30.—The government customs agents renewed their activity to-day in the Jenkins jewelry mystery in preparation for the grand jury investigation next week. Mrs. Helen Jenkins, whose name is coupled with those of prominent men of wealth in this connection, said she had been summoned. It is expected that several former customs inspectors will be witnesses, owing to intimations that the government was defrauded of duties on jewelry worth \$300,000 through connivance in the customs department.

## Refreshing Drinks for Summer Season.

One of the most beneficial drinks is made by heating a whole egg and squeezing into it the juice of one lemon, then adding sufficient ice water to make two glasses of the beverage. This is not only delicious and refreshing, but is very nourishing for invalids and convalescents, says Suburban Life.

The fruit juices are popular in making summer drinks, and a very good juice is made by crushing a pound of strawberries and adding a quart of water and one lemon sliced. Let the mixture stand for several hours, and then strain over a pound of sugar, when it is ready for the ice.

Grape nectar is made by extracting the juice from one orange and two lemons, to which is added a pint of grape juice, one cup of sugar and a quart of water.

Better and more wholesome than the drinks usually sold at the fountains is grape punch, which may be served with soda water, or plain ice water. Boil to a syrup a pound of sugar and half a pint of water and, when cool, add the juice of six lemons and a quart of grape juice. Keep in a cool place and, when needed, add the right proportion of soda water or plain water.

For those who have grapes for the manufacture of their own grape juice, it is an easy matter to have it at all times. Simply squeeze out the juice and heat it to a temperature of 200 degrees, not more, and seal in jars or bottles. Do not allow the juice to boil, but the proper heat may be had by letting it simmer or steam.

## VARIOUS TOPICS.

Discussed at Fabyans by Dentists of Three States.

Fabyans, N. H., June 30.—Pink rubber gum racings, cast gold inlays, cement-lined cavities, splints for loosened teeth, crowns, vulcanizing and a hundred other kindred subjects were under discussion at the third session of the meeting of the Maine, New Hampshire and Vermont dental societies here yesterday.

Among the speakers at the different clinics were Dr. J. B. Buckley of Chicago, Dr. C. F. Bliven of Worcester, Dr. E. T. Sherman of Springfield, Mass.; Dr. D. C. Watt of Barre, Vt.; Dr. N. M. Stanley of New Bedford; Dr. Edward H. Mudgett of Hartford, Conn.; Dr. E. S. Tracy of Brockton; Doctors W. G. Bridge and H. A. Baker and J. L. Taylor of Boston.

STATE RESTS CASE  
IN MOFFIT'S DEATH

Rupture of Middle Cerebral Artery Was the Cause of the Old Man's Death, Said Physicians.

Manchester, June 30.—The state rested its side of the Dupuis case at 3:30 o'clock yesterday afternoon.

The evidence of yesterday was mostly that of Dr. Gray of East Arlington, who first attended the deceased, Cyrus Moffit; Drs. Bartlett and Hurley of Bennington, who went with Dr. Gray on Tuesday morning in consultation, and the description of the results of the autopsy made by Dr. B. H. Stone and Dr. Charles F. Dalton of the state laboratory. Moffit's death was stated to be due to cerebral hemorrhage ultimately found to be caused by a rupture of the middle cerebral artery. As the body was in general good health and the condition of the artery excellent it was the opinion of the doctors that the rupture was caused by external violence.

So far the defense has shown that the boys came from Canada without extradition papers and that they left these parts owing to fear of personal violence as they had been turned away. It also developed that a letter had been written to the state's attorney by Jim Dupuis, in which he stated that he and Albert would come back willingly. As the whole letter was not allowed as an exhibit it is not generally known whether the offer included the respondent or not.

## MURDER IN NEW JERSEY.

Body of Mrs. Mary Green Found Beside Railroad Track.

Camden, N. J., June 30.—The body of Mrs. Mary Green was found yesterday beside the railroad track half a mile from Williamstown Junction, near where she lived. Apparently the woman had been strangled to death after a desperate struggle. Her clothing was torn and her face, neck and arms bore marks of finger nails, while the earth all about was pitted with heel prints.

Mrs. Green left her husband and child at home last week and went to Philadelphia to visit friends. She had not been heard from at home since that time. The police are looking for two men who were seen last Wednesday evening with a woman driving towards the spot where the body was found. The woman was about 30 years of age.

## DEWEY AT WOODSTOCK.

Famous United States Admiral to Spend Summer There.

Woodstock, June 30.—Admiral George Dewey of Washington, D. C., has arrived at Hotel Woodstock with Mrs. Dewey for the summer. Admiral Dewey passed last summer at this place and was so well pleased with the location and the people that he announced his intention last year of returning this summer.

## FORTY-NINE AUTOS STOLEN.

Valued at \$950,000.—The Record of One Month in Chicago.

Chicago, June 30.—Forty-nine automobiles, valued at nearly \$950,000, have been stolen in Chicago since June 1, according to the police records. The police say the automobiles stolen are of two general classes, "joy riders" and those who steal machines to sell.

## MONTPELIER.

M. H. Daniels of Calais has been committed to the county jail for debts. He owes the Montpelier Plumbing company \$110 and has no property with which to pay.

The Vermont Poultry association held a meeting last night in the city court room. President, E. M. Lyon of Barre presiding. The meeting was largely for making plans for the poultry show, which is to take place here December 26 to 29. A few new officers were appointed: H. C. Gilman as assistant superintendent of fairs; B. M. Shepard, member of executive committee; William Brown of Barre, chairman of advertising committee. The association has a membership of 75, but an effort was made to double it.

The Old Rockingham Meeting House association has filed articles of incorporation with the secretary of state; the purpose of the organization being to preserve the old meeting house and to commemorate historical events. The signers are all Bellows Falls people: Nathan G. Williams, Arthur P. Pratt, Willis C. Belknap, Lyman S. Hays and Herbert W. Mitchell. The Caswell & O'Rourke store company of Derby Line has also filed articles of incorporation and is formed to conduct a general mercantile business. The signers are Fred Caswell, Frank O'Rourke, Harry N. Rickard, R. W. Darling, Mary E. Caswell and Mary B. O'Rourke. The capital stock of \$40,000 is divided into shares of \$100 each.

A telephone line is being strung out from Barre Transfer to Groton and either this year or next a trunk line will be constructed. This will be a much more direct line than the present, which goes through Barre City, to Orange and then to Groton. Most of the right-of-way is across private property, including the state forest at Plainfield, and belonging to T. N. Vail. One object in the carrying of route is to get the telephone wires away from the high tension electric wires.

HONORS EVEN  
AT PRESENT

Harvard and Yale Took One  
Event Each To-day

## THE YALE FRESHMEN WON

While Harvard Substitute Varsity Four-oared Crew Crossed the Line Three Lengths Ahead of the Yale Crew—Varsity Race, This Evening.

New London, Conn., June 30.—Awaiting with confidence the supreme test of speed, power and endurance, forty muscular collegians to-day gazed across the slightly rippled river and up at the cloudless sky, both of which gave them assurance of excellent conditions for the 45th meeting of Harvard and Yale in aquatic sports. The betting on the varsity eight-oared race favored Harvard, the odds being ten to six.

Among the spectators gathered to witness the day's sports was Harry N. Atwood, the aviator, who arrived in a biplane from Boston this morning. He reported a magnificent trip from the latter city. On reaching this place he flew over the course of the races, to the huge delight of the spectators, and landed on the west bank of the river.

In the preliminaries this morning, Yale won the freshmen eight-oared race by two lengths. The official time of this race was 11 minutes and 53 seconds, while Harvard's time was 11 minutes and 59½ seconds. Harvard then took the substitute varsity four-oared race by three lengths.

FLEW 75 MILES  
IN AEROPLANE

Harry N. Atwood Made Good Flight Along South Shore in Massachusetts Last Evening.

Boston, June 30.—Harry N. Atwood made his longest single flight in his career along the south shore last evening and returned to Squantum after having been in the air nearly two hours. He covered over 75 miles and averaged 42 miles an hour. He had to give up his flight to Plymouth on account of the coldness of the air. He says he got "the scare" of his life in his passage over the Narrows, when a gun from one of the pleasure craft saluted him. He thought his motor had exploded.

The aviator left Squantum at 5 o'clock and got back at the aviation field at 6:55. From Squantum he flew over the River Works at Quincy, Weymouth, Hingham and across the bay to the Atlantic house at Nantasket. He circled the towers at Paragon park, turned and went to Cohasset, where he circled and received the hotel on the rocks there amid the tooting of auto-horns and cheers from the spectators below, many of whom were lined up around the hotel and on rooftops.

From Cohasset he flew over Beachwood, Egypt, North Scituate and Scituate, landing on the grounds of the Hatherly club for gasoline. After a delay of eight minutes he flew back over the same route to Nantasket and continued along the length of the beach to Pemberton, Hull and across the Narrows, where he was saluted by the repeated booming of guns from the pleasure craft. He flew back to Squantum from Boston Light, covering the same route over the harbor islands that he made in his flight after the Bangor boat Wednesday evening.

## TO BE BROUGHT FROM TEXAS.

Rutland Authorities Make Long Trip to Arrest William E. Day.

Rutland, June 30.—For the second time within two months a man is to be brought from San Antonio, Tex., to this city to answer to a charge of larceny. Deputy Sheriff Henry R. Adams of Rutland and Patrick H. Patton of West Rutland are on their way to San Antonio and the man they are after is William E. Day of this city, aged 29 years, a private in the 28th infantry. State's Attorney B. L. Stafford has filed an information against Day, charging him with stealing money from a desk in the Uvanta lunch room in this city, February 11, last.

John Carnell, age 18, who was brought to Rutland from San Antonio in May and is now out on bail, is charged with the same offense. At the time the officers went after Carnell, Day was serving a sentence for an offense committed while a soldier and the federal authorities would not give him up. The evidence against him has been strengthened since the Vermont authorities talked with Carnell.

Both Day and Carnell enlisted at Fort Snelling under assumed names soon after leaving Rutland.

## STATE FOREST FIELD MEETING.

Good Idea Gained of Results Obtained in Plainfield.

Plainfield, June 30.—The field meeting and basket picnic, held at the state forest yesterday, proved very successful and about 125 persons were present. State Commissioner of Agriculture O. L. Martin welcomed the guests and many brief addresses followed. State Forester Hawes explained the work of the state nursery and gave many points concerning forestry. He stated that trees should be planted about six feet apart, 1,200 to the acre.

Clement Smith of Morrisville, master of the state game spoke of the need of larger appropriations by the legislature to carry out the work now so well begun. Charles Green of White River Junction, a member of the board of agriculture and forestry and a lumberman of considerable experience, was quite enthusiastic over the growth of the state forest and thought there was no state better fitted than Vermont to give special thought to this subject. Other speakers were H. M. Farham, master of the pomona grounds; Col. H. S. Foster of North Calais, lecturer of the pomona grounds; Burham Colby of Plainfield; F. L. Laird, F. A. Howland, George Blanchard, Montpelier.

As lunch had already been served, the party proceeded to inspect the forest. Perhaps 15 per cent. of the pines planted have died, but most of them are in a thriving condition. The area of the land included in the tract is 500 acres and when it was purchased, in the fall of 1909-1910, cost between \$4 and \$5 an acre. The first year 25,000 four-year-old white pines were planted; the next year 8,500 three-year-old white pines were planted and 10,000 four-year-old Scotch pines. In the winter of 1910-1911 the spruce trees were thinned out and 42,000 feet of soft wood lumber and 184½ running cords of hard wood were cut. As small lots of land become available, this open land will be planted and the rest of the forest will be thinned out.

## NEWSPAPER MEN'S FROLIC.

About Fifty of Them Attended Mid-summer Meeting in Burlington.

Burlington, June 30.—Fifty members of the Vermont Press association held their mid-summer meeting in this city yesterday, having a banquet at the hotel Vermont in the afternoon as guests of Max L. Powell, visiting about the city, having another banquet at the Van Ness house last night, also working in a short business session during the evening.

Governor Mead was unable to be present, but special guests were Editor Robert L. O'Brien of the Boston Herald, Speaker Frank A. Musgrove of New Hampshire and editor of the New Hampshire Gazette, Cy Warman of Montreal, president of the American Association of Humourists and D. H. Hadley, collector of customs at Plattburgh, N. Y. Speaker Musgrove emphasized the natural advantages of Vermont and New Hampshire. He said in part as follows:

"There are many things that New Hampshire and Vermont have in common. In politics, scenery, people, community interests, social and economic problems, they are very similar."

"No other two states in the Union are so blessed in the way of natural beauty as New Hampshire and Vermont and it is the duty of newspaper men to advertise this asset. The seal of public approval. Six chairs."

W. J. Barnett, pastor of the Congregational church. Later the body was taken to Plainfield where the funeral was held in the Methodist church this afternoon at 2 o'clock, the pastor, Rev. A. W. Hewitt, officiating.

The bearers were Maynard and Milford Kiser, sons of the deceased, and H. F. Cutler and D. H. Cutler, nephews of Mrs. Kiser. Music was furnished by the church choir. The casket was surrounded by a large number of floral pieces. The services were largely attended and a long line of mourners followed the remains to their last resting place in the village cemetery.

## MANUFACTURERS'

## OUTING ON JULY 5

It Will Take Form of Basket Picnic at Caledonia Park Wednesday, With Sports and Other Amusements.

The committee appointed to make plans for the annual outing of the Granite Manufacturers' association was unable to obtain satisfactory dates for an excursion and boat ride and so has decided to hold the annual outing at Caledonia Park, Wednesday, July 5. The outing will take the form of a basket picnic and will be confined exclusively to the members of the Manufacturers' and Quarry Owners' associations and their families. Arrangements are being made for sports and other amusements, and it is expected that this will be one of the pleasantest gatherings that the association has ever had.

## INSTITUTE NEW LODGE.

Of A. O. H. Auxiliary at Graniteville With 22 Members.

About twenty-five members of Division No. 1, Ladies Auxiliary to the Ancient Order of Hibernians of this city and eleven members of the Mountpelier division, accompanied by Mrs. O. N. Granger of Barre, state president, and Mrs. Flora Murphy, county president, also of this city, went to Graniteville last evening to assist in the organization of a new division, No. 3. The degree work was done under the supervision of Mrs. Granger, assisted by Mrs. Murphy. Considerable enthusiasm was evinced in the organization of a new auxiliary numbering as many as twenty-two charter members and the ceremony incident to the occasion was carried out to the satisfaction of everyone.

The following officers will serve for the new division during the ensuing year: President, Mrs. Anna Sheehan; vice-president, Mrs. Sabrina McGinnis; recording secretary, Miss Anna Brady; financial secretary, Miss Margaret Murphy; treasurer, Miss Anna Houghton; sentinel, Miss Margaret Enright; mistress at arms, Miss Nellie Murphy.

The first and second degrees were conferred upon the new members by Division 2 of Montpelier and after the ceremony, an excellent supper was served at the local restaurant. This feature of the affair was tendered gratuitously to the entire company by the members of Division 3, Ancient Order of Hibernians of Graniteville.

The new branch of the rapidly growing order starts off auspiciously. Meetings will be held regularly.
